

Is your packaging fit for purpose?

Packaging is required to protect, preserve and promote food and drink products. We support our clients with a wide range of consultancy and testing services to ensure that your packaging is 'fit for purpose'.

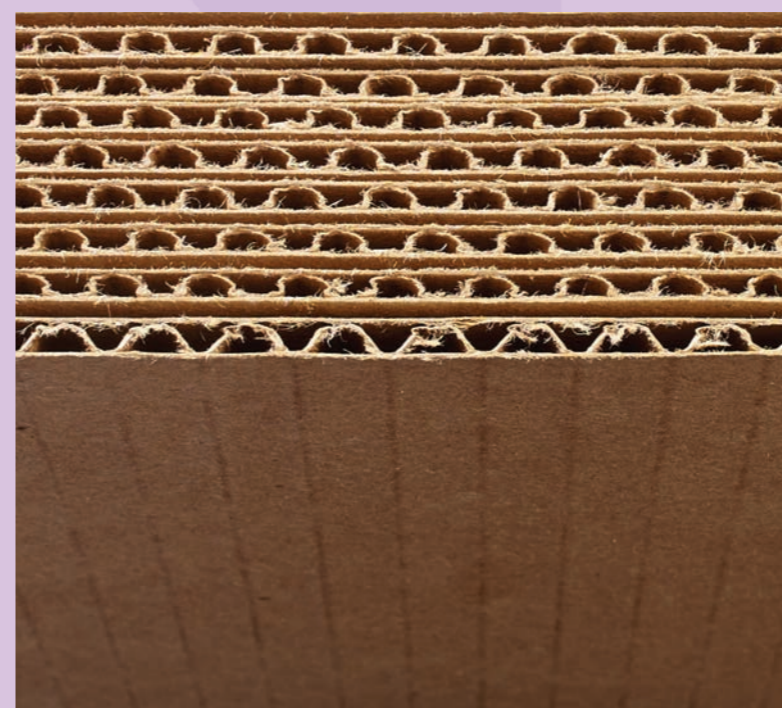

Compliance testing

to ensure packaging meets all the regulatory requirements

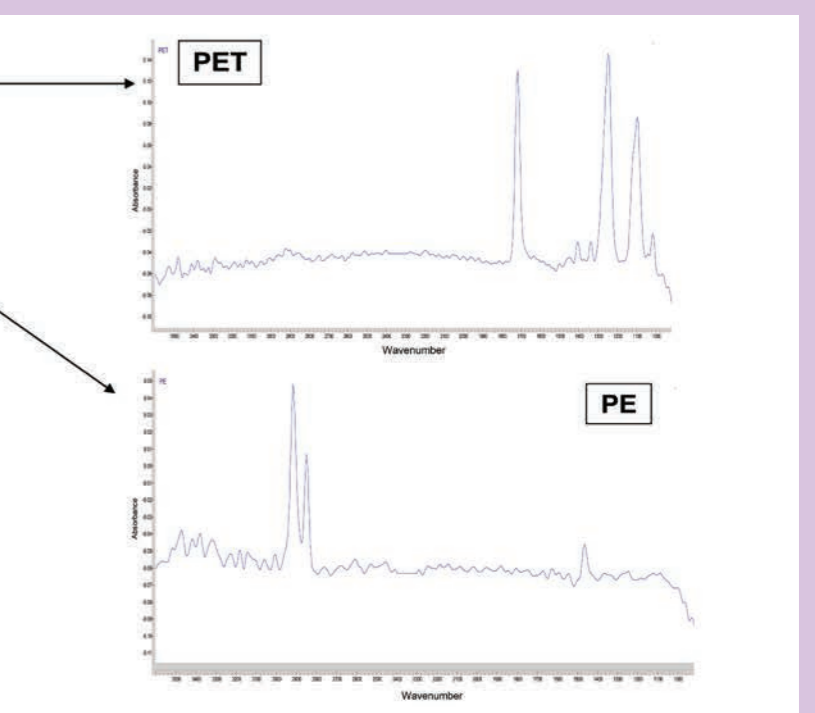

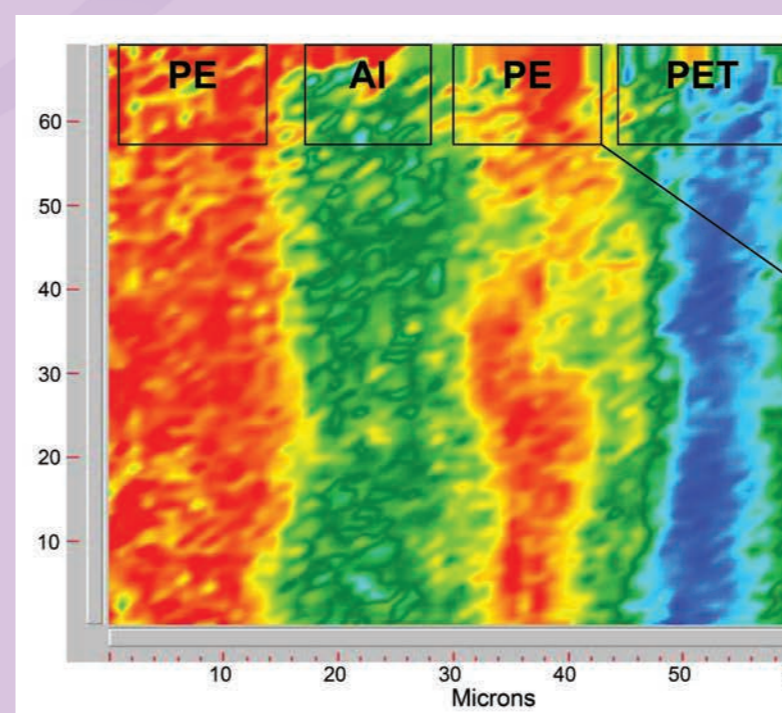

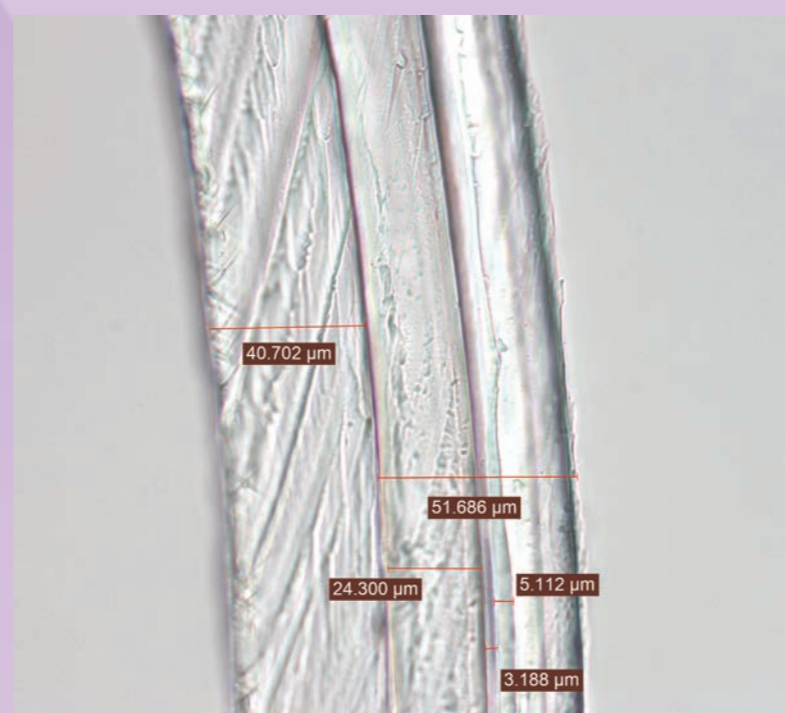

Material suitability

are you using the correct materials and do they meet your specification?

Specification

identification and measurement of layers in a multi-laminate film using FTIR and compound microscopy

Trouble-shooting

when things go wrong we carry out independent testing and consultancy
