What our members say about us

I've been using the free enquiries and it's amazing, the best benefit ever... We weren't sure about membership at first but now we know it's worth it, management also agree...the MIGs are amazing, Food Law Alert, and in general information we get is appreciated. I trust that any information I get will be up-to-date and accurate."

Bazooka

Campden BRI is our go-to for independent, expert advice and professional testing. Additionally, the meetings, seminars and training they provide help keep us up to speed with all that's new in the world of food manufacturing."

Vikan

Thank you for your great support and help for last few months of project preparation and technical support... working with our factory team to seek solutions and support the trial."

Our people

We have **world-renowned** technical experts and scientists in food safety, culture excellence, microbiology, chemistry, microscopy, regulatory affairs, product development, consumer insights, sensory science, innovation, packaging, processing and more, all of whom are **passionate** about making a positive difference to your business.

We have been undertaking impactful research for over 100 years and continue to do so. Whether it's writing **global standards** that are adopted throughout the industry, supporting manufacturers with their zero alcohol drinks, or **developing concepts** for culturing meat in space, our people are always there for our members.

Whatever you are facing, whether it is **unexpected food safety challenges, everyday manufacturing issues, innovation** or **supply chain concerns**, we are the **best placed organisation** to help you get the answers you need and offer solutions from farm to fork.

We have been members of Campden BRI for several years. To have a consistent point of reference for legislation and best practice which incorporates the most current research is invaluable. We have also used Campden's services for new projects and specialist training and have found their input to be of the highest standards. For us, their technical expertise is vital."

TCFG Naas Ltd t/a The Culinary Food Group

the main benefits of being a MIG member are that you get to meet people in the same sub sector of the industry whilst hearing up to date research relevant to our area. I would recommend it as a way to increase your network across the industry... I have met numerous contacts in other business, formed working relationships with other members who are in supplier companies as well as academic colleagues who work in related fields.”
