

Training courses

Your partner for skills and knowledge development

Effective training designed for food and drink businesses

Over the last 90 years, Campden BRI has developed an excellent track record and reputation for the development and delivery of training programmes for personnel from the private and public sectors across the whole food and drink supply chain. We deliver courses related to safety, quality, efficiency and innovation (product, process and packaging) and, over the last year, we have trained over 5000 individuals.

All courses are interactive, industry focused (blending theory and practice) and are delivered by enthusiastic specialist trainers.

Topical courses and events are grouped in key sections to create a ladder of learning whenever possible, i.e. from basic/foundation to advanced and from general to specialist.

Our courses:

- Use purpose built training facilities, pilot production areas, testing laboratories and our training bakery where appropriate
- Are accredited to recognised national and international standards
- Are accredited by National Skills Academy as a Centre of Excellence - food science and specialist in bakery and confectionery
- Offer invaluable support after the course to ensure optimum implementation of new skills and knowledge

www.campdenbri.co.uk/training.php

Scheduled training

for the food and drink industry

Analysis - chemistry

An insight into species detection
Calculating meat content
Food authenticity testing and the detection of adulterants

Bakery and cereal technology

Practical skills - biscuit
Practical skills - bread
Practical skills - cake
Practical skills - pastry
Principles of baking
Biscuit - science and technology
Bread - science and technology
Cake - science and technology
Pastry - science and technology
Cereal - science and technology
Chorleywood bread process
Enzymes for bakery products
Gluten free bakery product
Sourdough technology

Brewing and malting

(courses held at the Nutfield site)

Brewery microbiology
Brewing - an introduction
HACCP for craft brewers (level 2)
HACCP - intermediate for brewers (level 3)
Malting and speciality malts
Sensory - evaluation, panel training
Yeast management for brewers

Consumer and sensory science

Consumer research - for product development
Sensory evaluation - an introduction
Sensory evaluation - discrimination testing
Sensory evaluation - workshop
Statistical methodology, data analysis, sensory methodology and screening

Food technology

Beverage development and manufacture
Food technology for non food technologists
Frozen foods - an introduction to the practical elements
MAP - an introduction
Meat technology
Microwave heating
New product development
Nutrition and health claims
Packaging technology for non packaging technologists
Principles of pasteurisation
Safe cooking: process validation
Safe production of heat preserved foods - the essentials (including principles of canning)
Sugar reduction in foods
Thermal processing - quality optimisation
Thermal processing validation

Campden BRI is a major training provider to the agri-food and drink chain, offering over 200 scheduled courses and events

Labelling and legislation

An introduction to food law
Beer labelling requirements
Food additives, flavourings and enzymes: food improvement agents package (FIAP)
Food and drink labelling
Nutrition and health claims
USA food and drink labelling
Weights and measures

Microbiology

Understanding microbiology
Practical microbiology - foundation
Practical microbiology - intermediate
Practical microbiology - advanced
Designing microbiologically safe food
Setting shelf life: how to do it better

HACCP - foundation (level 2)
HACCP - intermediate (level 3)
HACCP - advanced (level 4)
HACCP - refresher
HACCP - validation and verification
HACCP auditing
HACCP for engineers
HACCP in NPD
HACCP for packaging
Internal auditing - principles and practices
Raw material risk assessment
Root Cause Analysis
Supplier quality assurance - foundation
Threat Assessment Critical Control Point (TACCP) - update
TACCP - intermediate

Quality and safety management

Allergen control
Auditor/Lead auditor course - FSSC 22000
Cleaning and disinfection
Documentation and design of quality systems
Factory inspections - technical issues
Food processing hygiene management
Food safety - intermediate (level 3)
Food safety - advanced (level 4)

Raw material: safety and quality

Agricultural production and processing - meeting requirements
HACCP for feed - intermediate (level 3)
Good practice on food safety and feed

Wine *(courses held at the Nutfield site)*

HACCP - intermediate course for wine makers (level 3)
Product recall, including aspects of wine quality
Wine analysis and tutored faults tasting

Collaborative events

You can promote your products or services at an event by either exhibiting, sponsoring a package or making the most of the networking opportunity by attending. If you would like more detailed information, please email sian.twinning@campdenbri.co.uk

Events 2018

Topical seminars and conferences are a feature of our role in keeping the industry informed of developments. We bring together speakers from different parts of the food chain from growers to producers, retailers to enforcers.

Conferences

23-24 May International bakery technology
07-08 Jun International thermal processing
10-11 Oct Hot topics in food microbiology

Seminars and workshops

27 Feb Cyber crime in the food sector
01 Mar Bacterial identification and typing
27 Mar Sugar reduction in beverages
24 Apr Salmonella and listeria
26 Apr Allergen (gluten free and beer)
16 May FSSC 22000 version 4.1
21 Jun Viruses (Hep A, E and Norovirus) and genomics
03 Jul Sugar reduction - challenges and opportunities
07 Sep BRC issue 8 briefing
21 Sep BRC issue 8 briefing
05 Oct Packaging event
19 Oct BRC issue 8 briefing
08 Nov Shelf life event
13 Nov Sugar reduction in confectionary
16 Nov BRC issue 8 briefing
22 Nov Dairy event
27 Nov Multi-sensory branding
04 Dec Food labelling update

A venue for the food and drink industry

Did you know you can hire one of our meeting rooms to hold your own company meeting or event?

We have 11 meeting rooms available to hire in a variety of sizes ranging from small rooms, perfect for meetings of 2-6 people, to large rooms which can seat up to 100.

We can provide:

- Flip charts and pens, name badges and registration
- Built in audio visual equipment
- Catering and refreshments
- Lectern, staging and sound equipment available
- Free parking and Wi-Fi

With prior notice we can arrange a tour of the site during the lunch period to see our processing facilities. One of our resident experts could also deliver a relevant presentation to the topic of the meeting if required.

We are surrounded by a variety of local accommodation suitable for a range of budgets and are happy to provide assistance with hotel booking.

If you would like to view the facilities or check availability, please call our Training Team on +44(0)1386 842104 or email training@campdenbri.co.uk

Tailored training

choose where and when you want your training

Did you know that many of our most popular courses can also be delivered at your business premises?

Running a course exclusively for your staff can be more cost and time efficient, as well as offering potential as a team building exercise.

Parts of many courses can be tailored to address your particular business issues.

Training academies

If you want to take a structured approach to technical training across your business - from needs analysis through to delivery of tailored content - our successful training academy model can deliver just what you need.

Bespoke approaches and content, with a dedicated account manager, will ensure that you achieve the right learning outcomes for your business.

To discuss tailored training or training academies contact James Allen, Learning and Development Account Manager, to discuss your requirements: james.allen@campdenbri.co.uk, +44(0)1386 842065

Are you new to the food and drinks sector?

Those new to the food industry, or changing roles to a less familiar discipline, will need foundation training in technical areas.

We run a number of courses designed to fulfil this role - from general courses about food technology, microbiology, packaging and HACCP to more specific topics such as canning, baking and brewing.

These courses are also ideal for those in food companies whose role is not technical, such as administrative, accounts and sales staff.

- An introduction to food law
- Brewing - an introduction
- Food technology for non food technologists
- HACCP foundation
- New product development
- Packaging technology for non packaging technologists
- Practical microbiology - foundation
- Principles of baking
- Principles of pasteurisation
- Safe production of heat preserved foods - the essentials
- Sensory evaluation - an introduction
- Understanding microbiology

We offer a wide variety of training courses, workshops and conferences. Our scheduled courses are supplemented by tailor-made contract courses designed for individual companies; these can be held at Chipping Campden, or at a location of your choice, including overseas.

For further information or to check availability contact the Training Team on +44(0)1386 842104 or e-mail training@campdenbri.co.uk

Support for companies exporting to the USA

A company exporting to the US will need to comply with US regulations. We offer three courses to support companies:

USA food and drink labelling

Food labelling regulations in the USA are very different and more prescriptive than those in the EU. The course provides an in-depth view of those labelling requirements and helps delegates understand how to translate their EU label into a US label.

Better process control school (BPCS)

If you are exporting canned or aseptically packaged foods to the USA, the Food and Drug Administration regulations require that each processor of low-acid or acidified canned foods (including aseptic) operate with a certified supervisor on site at all times during production of products for export. The BPCS course provides information and support to help companies meet the requirements. We have been approved by Grocery Manufacturers Association Science and Education Foundation and the FDA to deliver the BPCS programme both as a scheduled course and in-house to companies.

FSPCA preventive controls for human food

FSPCA preventive controls for human food is a US regulation that requires that certain activities must be performed/overseen by a preventive controls qualified individual (PCQI). This course, developed by Food Safety Preventive Controls Alliance (FSPCA) is the "standardized curriculum" recognised by the FDA. Successfully completing this course meets the requirements to become a PCQI. The course will be run both as a scheduled course and in-house for individual companies.

Training and continuing professional development

CPD for the food profession

Campden BRI offers a wide range of short courses and events, best practice technical publications as well as member interest groups. Campden BRI is an approved provider for the Institute of Food Science and Technology (IFST) CPD Schemes.

myCPD offer

www.campdenbri.co.uk/training/cpd.php

Every delegate that books a place on a Campden BRI public course will receive a free two year subscription to myCPD - an online continuing professional development (CPD) management system developed by the IFST.

Training and development group - sharing best practice

The group meets twice a year to focus on the challenges and issues that food businesses face, including high staff turnover, heavy reliance on overseas nationals, tight budgets, and the wide range of training available. These highly interactive meetings, provide opportunities to share feedback on industry initiatives, hot topics, current trends and latest developments for those involved in the strategic planning and delivery of training programmes.

To join contact jo.rathkey@campdenbri.co.uk (open to Campden BRI members only).

Networking

Meeting up with colleagues in the industry is a major benefit of being a member of Campden BRI - particularly at our member interest group meetings. These provide an ideal forum for discussing the scientific and technical issues of the day in a relaxed atmosphere. Our annual open day - Campden BRI Day - is one of the major events in the food and drink industry calendar. It is an ideal opportunity to talk about the latest topics of interest with peers.

Publications

www.campdenbri.co.uk/publications/pubs.php

Our publications store contains a wide range of textbooks, guideline documents and reviews covering the full range of food and drink production and processing activities.

These are complemented by webinars, white papers, videos and podcasts.
