

The Enterprise Europe Network offers a broad range of services to help your business access European markets.

- We can work with you to **identify suitable technology partners** for the further development of any projects you may be working on, or looking to exploit. We can help you write a profile and then utilise our extensive networks to identify potential partners and guide you through the technology transfer process. You can begin to search for technology partners by utilising the [search facility on our website](#).
- The Enterprise Europe Network now also offers the opportunity to **search for agents, distributors or suppliers** across the whole of Europe. You can begin to search for trade partners by utilising the [search facility on our website](#).
- A dedicated [information team](#) who can liaise with any of our 400 European offices to provide you with **advice on trading in Europe**.
- A [European tender alert service](#) which offers you the opportunity to receive details of relevant public sector contracts from across Europe.
- We provide significant hands on support for companies wishing to **access European research funding** through participation in [Framework Programme Seven](#).
- **Intellectual asset management support** from advisors who can work closely with your company and provide advice on converting your innovation into commercial success.
- **A monthly newsletter** providing you with the latest European news, details of upcoming events, business partner profiles and opportunities to take part in feedback to the European Commission.

If you feel you will benefit from any of the above services, or by talking to one of our experienced business advisors, please contact us on 0845 6060 969 or by email at info@enterpriseeuropesw.org.uk or through the website - www.enterpriseeuropesw.org.uk
