

CONTENTS

1.	Introduction - food hygiene in perspective	1
1.1	Potential contaminants	3
1.2	Routes of contamination	6
1.3	Preventing contamination: HACCP and hygiene in partnership	9
1.4	Hygiene legislation	12
2.	Premises and services	13
2.1	Production areas (walls, floors and ceilings)	14
2.2	Services - general	20
2.3	Air systems	21
2.4	Water systems	23
3.	Hygienic design of equipment	25
3.1	General considerations	25
3.2	Design features for equipment	27
3.3	Specific examples of equipment design	30
4.	Hygienic practices	37
4.1	Personnel hygiene	37
4.2	Pest control	44
5.	Cleaning and disinfection	46
5.1	Cleaning chemicals (detergents)	47
5.2	Disinfectants	49
5.3	Application of detergents and disinfectants	51
6.	Hygiene monitoring	56
7.	Conclusions	60
8.	References and further reading	61
