CONTENTS

FOREWORD i

EXECUTIVE SUMMARY AND CONCLUSIONS ii

RECOMMENDATIONS viii

ACKNOWLEDGMENTS xii

PART 1: REVIEW OF MICROBIOLOGICAL HAZARDS, INDUSTRY PRACTICES, AND UK LEGISLATION, GUIDELINES AND CODES OF PRACTICE

1. INTRODUCTION 1

2. REVIEW OF THE LITERATURE 3
   2.1 Raw Meat Material Considerations 3
   2.2 Contamination 4
   2.3 Microorganisms 4
   2.4 Clostridium perfringens 6
   2.5 Cooling and Chilled Storage 8
   2.6 Cooling Rates 10

3. INDUSTRY PRACTICE FOR COOKING AND COOLING OF LARGE MEAT PRODUCTS 13
   3.1 Introduction 13
   3.2 Variety of Industrial Processes 13
   3.3 Factories Visited and Reported On 14
   3.4 Effect of Cooling Method and Method of Packaging 25
       3.4.1 Principles of cooling 25
       3.4.2 Available methods of cooling 26
       3.4.3 Air cooling 26
       3.4.4 Liquid cooling 30
3.4.5 Vacuum cooling
3.4.6 Plate (contact) cooling
3.4.7 Summary of cooling methods
3.4.8 Combination methods
3.4.9 Experimental applications
3.4.10 The effect of packaging

4. COOLING OF COOKED MEATS: GUIDANCE FROM PUBLISHED REGULATIONS, GUIDELINES AND CODES OF PRACTICE

PART 2: INVESTIGATION OF BACTERIAL GROWTH DURING MEAT COOLING

5. PLAN OF INVESTIGATION
   5.1 Challenge Tests
   5.2 Effect of Method of Containment
   5.3 Effect of Cooking Techniques
   5.4 Contamination after Cooking
   5.5 Effect of Cooling Method and Method of Packaging
   5.6 Commercial Factory

6. MATERIALS AND METHODS
   6.1 Challenge Tests: Pilot Scale Processing Experiments
   6.2 Challenge Tests: Laboratory Based Experiments
   6.3 Effect of Method of Containment
   6.4 Processing Technologies
      6.4.1 Heat processes
      6.4.2 Cooling processes
      6.4.3 Process monitoring
   6.5 Contamination after Cooking
   6.6 Monitoring a Commercial Process
   6.7 Temperature Distribution/Ham Cooling

7. RESULTS
   7.1 Challenge Tests
      7.1.1 Chicken
      7.1.2 Turkey and beef
      7.1.3 Cured and uncured pork
      7.1.4 Roasting of beef
7.1.5 Effect of method of containment  
7.1.6 Effect of cooking techniques  
7.1.7 Contamination after cooking  

7.2 Commercial Factory Results  

8. DISCUSSION  
8.1 Laboratory Based System  
8.2 Uncured Products  
8.3 Cured Products  
8.4 Roast Products  
8.5 Effect of Method of Containment During Cooking  
8.6 Contamination after Cooking  
8.7 Factory Trials and Data Obtained from Commercial Sources
