# Job Profile

## Chromatography Technician

### Chromatography Section Chemistry & Biochemistry Department

For enquiries concerning this job, please contact:

Karen Hyslop  
Human Resources Department  
Campden BRI  
Station Road  
Chipping Campden  
Gloucestershire  
GL55 6LD

Telephone: +44(0)1386 842124  
Email address: [karen.hyslop@campdenbri.co.uk](mailto:karen.hyslop@campdenbri.co.uk)  
Web site address: <http://www.campdenbri.co.uk>

Campden BRI provides scientific, technical, and legislative support to the food, drinks and allied industries worldwide. The practical application of technical excellence lies at the heart of all that we do and is supported by our industry-leading facilities, expertise and knowledge.

From analysis and testing and operational support to knowledge management, all our activities are built on an extensive programme of research and innovation steered by industry to ensure maximum commercial relevance.

We provide services to companies all along the supply chain, but offer discounts, access to expert advice and other benefits for those that come into membership. Many of our clients are major blue-chip companies and household names.

## Locations

The Campden BRI Group operates from two sites in the UK and a third in Hungary. The role as advertised will be based at the Chipping Campden but could require from time to time travel to other Group sites.

The site in Chipping Campden employs 300 full or part-time staff. A further 50 staff are employed at the site at Nutfield, Surrey and 30 staff are employed at our site in Budapest, Hungary.

## The Department of Chemistry and Biochemistry

The Chemistry & Biochemistry Department comprises around 50 staff from a wide range of disciplines. It provides essential services to industry through a wide range of analytical testing and research activities. The Department is organised into four operational sections: Chromatography, Biochemistry, Microscopy, and Food Composition.

## Chromatography Section

The Chromatography Section comprises several teams of analytical chemists testing food samples for chemical contaminants and nutritional components using chromatographic and mass spectrometric techniques. The majority of the work is short term although some contribution to longer term research projects is also undertaken.

## The position

To undertake all contaminant analyses by LC-MS/MS and GC-MS/MS techniques and associated activities within the section.

Duties and Responsibilities:

- Carry out analysis of foodstuffs and interpretation of results relating to the food industry according to client instructions, within agreed timescales.
- Carry out administrative tasks relating to analytical work e.g. sample receipt and booking in of samples into LIMS
- Perform method development activities under the direction of a senior analyst. Collect data and produce reports.
- Calibration, maintenance and daily monitoring of lab equipment e.g. balances, pipettes
- To work in a safe manner in accordance with departmental policies.
- To work in accordance with the Campden BRI Management system.

## Qualification and Key Skills

- GCSE / A-level in science related subject and/or relevant laboratory experience
- Experience using Microsoft packages - word/excel/outlook/PowerPoint
- Experience working within an accreditation scheme
- Ability to work in a small team
- Flexibility to work on a number of tasks and manage priorities

## Pay and benefits

<b>Salary:</b>	£17,000 pa Full time 38 hrs (8.45-5.15pm Mon-Thurs., Fri 8.45-4.30pm)
<b>Grade:</b>	G1
