

**Name:**

**Department (and Section where appropriate): GRC – Health, Safety and Environment (HS&E)**

**Grade: G3**

**Job Title: Health Safety and Environment Advisor - Operations**

**Immediate Line Manager (Job Title):**

**Job Purpose**

- To act as the lead HS&E Advisor for Campden BRI Consulting Technology and Consumer and Sensory Science operational activities (“Operations”) with responsibility for advising on and ensuring compliance with the requirements of all relevant health, safety and environment legislation and best practice.
- To ensure that business management systems, training and behaviours are in place to ensure a safe working environment; to drive continuous improvement to include mentoring, benchmarking, training, and initiatives; to actively promote safe working practices and ensure the implementation and enforcement of corporate HS&E policies.

**Main Duties (including % of time spent)**

- Managing and promoting HS&E competence and awareness amongst staff by advising, mentoring, assessing training needs and providing relevant external and in house technical advice and training on HS&E matters (40%).
- Managing, drafting, monitoring, and maintaining effective HS&E systems, procedures, and documentation, including assisting with risk assessments (25%)
- Devising, implementing, and continuously improving the operational HS&E strategy (10%)
- To conduct and lead on audits and inductions and lead on incident/accident investigations ensuring root causes are identified, that learnings are effectively communicated, and appropriate measures are implemented in a timely manner (10%)
- Ensuring that Operational systems and equipment are fit-for-purpose and robust by maintaining an up-to-date knowledge of HS&E legislation, safety issues, best practice, and new technical solutions and implementing as necessary. (10%)
- Collating HS&E data and providing interpretative management reports (5%)

**Knowledge, Skills & Experience**

- Educated to minimum A level standard with degree in a scientific discipline desirable
- NEBOSH Certificate in Occupational Health and Safety or equivalent as a minimum
- Level 2 Food Hygiene Certificate as a minimum
- Professional membership of the Institute for Occupational Safety & Health (IOSH) or equivalent
- Experience of working in a food or drink manufacturing facility preferably in a HS&E role
- EHEDG training and PUWER training/qualifications are desirable.
- Experience of working with ISO standards.
- Experience of accident/incident methodologies, investigations, and root-cause analysis.
- Experience of developing training matrices and delivering HS&E training
- Strong leadership, mentoring and influencing skills with ability to work collaboratively with internal and external HS&E stakeholders
- Effective in communication and negotiation with demonstrable organisational and administrative skills.
- Experience of handling and communicating complex, sensitive and/or confidential information to a variety of stakeholders including senior management and third parties.
- Experienced at collating data, identifying trends, and producing reports.

**KEY TASKS & RESPONSIBILITIES****1. Communications**

- Confident subject matter expert with ability to assimilate complex information and make sound and pragmatic decisions.
- Strong influencing and interpersonal skills to proactively communicate across the business with management and staff at all levels to champion operational HS&E matters.
- Demonstrable solution focused communication and negotiation skills — upwards, downwards, and outwards to impart and discuss HS&E information with stakeholders having both specialist and non-specialist knowledge.
- Competent at collating data, identifying trends, and producing management reports to include justifications/recommendations for changes to operational HS&E management systems.
- Confident at making presentations and representing the business at external meetings/events.
- Capable of identifying and managing situations of varying complexity, escalating as necessary and identifying and implementing effective solutions.
- Capable of handling and communicating complex, sensitive and/or confidential information to a variety of stakeholders including senior management and third parties.
- Capable of liaising with enforcing bodies such as the Health and Safety Executive and Environment Agency when necessary and when required, representing Campden BRI in discussions and meetings with external groups e.g., AIRTO

**2. Analytical Skills & Creativity**

- Ability to analyse new and evolving technical/legislative information and develop and communicate strategies based on these inputs.
- Capable of assimilating multiple information streams of varying complexity and opinions to make sound effective decisions/recommendations and offer a structured approach to problem solving.
- Ability to organise to balance longer term objectives and deliver against shorter term deadlines with variable notice periods.
- Competent at using incident/accident investigation methodologies to ensure root causes are identified, learnings are effectively communicated and that appropriate measures are implemented in a timely manner.
- Capable of devising, implementing and continuously improving the HS&E strategy for Operations
- Experienced at identifying, developing, and implementing new initiatives to enhance Operations HS&E activities
- Ability to create training matrices and implement an effective HS&E training programme for Operations staff

**3. Management of Activities**

- Focused on producing accurate work to deadlines with a strong attention to detail.
- Flexible and able to work under pressure.
- Demonstrable capability of knowing when to escalate matters.
- Collaborative team player capable of gathering information from a variety of internal and external sources.
- Competent at managing a workload with conflicting priorities and deadlines
- Focused on improving Operations HS&E processes, policies and procedures and promoting best practice.
- Developing strategies and tools to manage risk in response to HS&E legislative requirements and advisory notifications.
- Proactive in ongoing self-performance improvement and development.
- Responsibility for managing the fitness-for purpose, effectiveness and implementation of Operations HS&E data, policies and procedures, investigations, associated actions, and HS&E surveillance.

**4. Management of People**

Finance Director - AD (GRC) – **Job Holder** – Team Leader – Team members

- No direct reports
- Responsible for assessing training needs and managing and ensuring delivery of all Operations staff HS&E training.

**5. Management of Finance & Resources**
