Email address: karen.hyslop@campdenbri.co.uk
Web site address: <http://www.campdenbri.co.uk>

Campden BRI provides scientific, technical, and legislative support to the food, drinks and allied industries worldwide. The practical application of technical excellence lies at the heart of all that we do and is supported by our industry-leading facilities, expertise and knowledge.

From analysis and testing and operational support to knowledge management, all our activities are built on an extensive programme of research and innovation steered by industry to ensure maximum commercial relevance.

We provide services to companies all along the supply chain, but offer discounts, access to expert advice and other benefits for those that come into membership. Many of our clients are major blue-chip companies and household names.

Locations

The Campden BRI Group operates from two sites in the UK and a third in Hungary. The site in Chipping Campden, Gloucestershire, employs 300 full or part-time staff. A further 50 staff are employed at the site at Nutfield, Surrey and 30 staff are employed at our site in Budapest, Hungary. We also have a consumer test centre in Leamington Spa.

We have laboratories and pilot plants at both our UK sites, with the brewing and beverages specialisation based at Nutfield in Surrey. The successful candidate would therefore be based at our Nutfield site, albeit with a requirement for occasional travel between the two UK sites.

The Role

To undertake microbiological project work, report results internally and externally, support microbiological activities and, when required, lead projects. The prime focus is within the Microbiology & Assessments section, but there may be a requirement to perform tasks in other sections within the department.

- Carry out microbiology project and analyses work (65%)
- Reporting of results internally/externally (5%)
- Media and equipment preparation (20%)
- Maintain cleanliness of the Microbiology laboratory and other housekeeping activities (10%)
- Other duties within the department as required

Qualifications and competencies

- Degree or equivalent in microbiology or similar or relevant laboratory experience
- Experienced in basic microbiology techniques
- Ability to work within a team with minimal supervision and accurately follow SOPs/instructions
- Flexibility to undertake a number of tasks, able to prioritise and deliver results within given timeframe
- Accurate record keeping and reporting
- Good written and verbal communication skills

Your normal hours of work will be 35 hours per week. However, you may be required to work, as needed, additional hours at the weekend and on Bank Holidays. This will be paid as overtime or can be taken as time off in lieu. This will only be after full training has been given.

Key Skills

- Overcome daily issues with minimal supervision
- Problem solving skills to troubleshoot problems with complex equipment and methods.
- Planning skills required for short term projects
- Time management and adherence to timescales.

Pay and benefits

Salary:	Guide £17,750pa - £23,000pa dependent upon experience
Grade:	G2
Holidays:	24 days per annum and a buying/selling holiday scheme .
Pension scheme:	Campden BRI operates a pension scheme
Training:	Campden BRI is committed to ensure all staff receive appropriate training to support their job function and business needs.
