Campden BRI
Station Road
Chipping Campden
Gloucestershire
GL55 6LD

Telephone: +44(0)1386 842124
Email address: karen.hyslop@campdenbri.co.uk
Web site address: <http://www.campdenbri.co.uk>

Campden BRI provides scientific, technical, and legislative support to the food, drinks and allied industries worldwide. The practical application of technical excellence lies at the heart of all that we do and is supported by our industry-leading facilities, expertise and knowledge.

From analysis and testing and operational support to knowledge management, all our activities are built on an extensive programme of research and innovation steered by industry to ensure maximum commercial relevance.

We provide services to companies all along the supply chain, but offer discounts, access to expert advice and other benefits for those that come into membership. Many of our clients are major blue chip companies and household names.

Locations

The Campden BRI Group operates from three sites in the UK and a fourth in Hungary. The role as advertised will be based at the Chipping Campden site but could require from time to time travel to other Group sites.

The site in Chipping Campden employs 300 full or part-time staff. A further 50 staff are employed at the site at Nutfield, Surrey and 20 staff are employed at our site in Budapest, Hungary. We also have a Consumer Test Centre in Leamington Spa.

Department

The Chemistry & Biochemistry Department comprises around 50 staff from a wide range of disciplines. It provides essential services to industry through a wide range of analytical testing and research activities. The Department is organised into four operational sections: Chromatography, Biochemistry, Microscopy, and Food Composition.

Duties and responsibilities:

- Carry out analysis of foodstuffs and materials relating to the food industry according to client instructions, within agreed timescales.
- Carry out administrative tasks relating to analytical work e.g. sample receipt and booking in of samples into LabWARE LIMS
- Ensure all aspects of Quality are managed according to Campden BRI standards, including the maintenance of QC records
- Calibration, maintenance and daily monitoring of lab equipment e.g. balances, pipettes
- Preparation of samples for analysis

Qualifications and competencies

- A levels in science related subject and/or relevant laboratory experience
- Experience using Microsoft packages - word/excel/outlook/PowerPoint
- Ability to work in a small team
- Flexibility to work on a number of tasks and manage priorities
- Good organisational skills in managing own workload and meeting deadlines.
- Be able to undertake routine analytical testing.
- Ability to work within a small team with minimum supervision.
- Familiar with standard computer software.
- Good phone and IT skills.
